PROFILE

Computer Science undergraduate at the University of Makeni with hands-on experience building full-stack web applications, real-time systems, and multimedia software projects. Regularly takes the lead on implementation in team coursework, translating group requirements into working, well-structured code. Focused on modern JavaScript technologies, clean UI/UX, and shipping software that solves real problems.

TECHNICAL SKILLS

Languages	JavaScript, HTML5, CSS3, SQL
Frameworks & Libraries	React, Next.js, Node.js, Express.js, Tailwind CSS, Vite
Data & ORMs	MongoDB, Drizzle ORM
Tools & Platforms	Git, GitHub, REST APIs, Clerk, ImageKit

SELECTED PROJECTS

WebGen — Multi-Tenant No-Code Website Builder *Next.js, Prisma, React*

- Architected a full-stack multi-tenant SaaS platform supporting agency and sub-account management, sales funnels, and pipeline tracking.
- Built a drag-and-drop website editor with resize handles, a floating toolbar, right-click context menus, theme presets, and 35+ reusable components.

Real-Time Chat Application *MERN Stack, Socket.IO*

- Developed a real-time messaging application using the MERN stack, with Socket.IO powering instant, bidirectional communication between users.

Meme Generator *Next.js, ImageKit*

- Built a meme-creation tool with Next.js and ImageKit for fast image upload, transformation, and delivery.

Doctor Appointment System *JavaScript, React, Node.js*

- Developed a full-stack booking system for scheduling and managing doctor-patient appointments.

Expense Tracker *React, JavaScript*

- Built a personal finance tool for logging, categorizing, and reviewing everyday expenses.

Multimedia Portfolio Website *HTML5, CSS3, JavaScript*

- Designed and built a multimedia portfolio site to showcase project work, developed as part of university multimedia computing coursework.

EDUCATION
